

Aircraft Leasing & Management

Part of FUYO LEASE GROUP

Company Profile

November 2024

Company Profile

ALM has been offering management, remarketing and advisory services to the commercial aviation industry since 1987.

In July 2014 ALM was acquired by Fuyo General Lease Co. Ltd, a Tokyo Stock Exchange listed company, in order to support the expansion of its aircraft leasing business and to develop ALM's servicing capabilities.

ALM's Global Reach

ALM actively manages a growing portfolio of current and new technology narrowbody aircraft on lease to 22 operators across 12 jurisdictions worldwide.

Lease Administration

ALM’s experienced team of portfolio managers utilise an industry leading asset management software system to monitor the technical status and lease compliance of the aircraft portfolio. Lease administration activities include:

Day-to-Day Liaison with lessees

Invoicing of lease rentals and maintenance reserves and ensuring their payment in a timely manner

Monthly monitoring of utilisation and maintenance events

Monitoring of lessee compliance with registration, airworthiness and operational covenants

Management of maintenance reserves and End-of-Lease maintenance compensation

Ensuring lessee compliance with insurance requirements

Technical Monitoring

ALM's technical monitoring product is modular in concept so that the level of oversight can be tailored to fit the drafting of the lease and the characteristics of the lessee.

-  Audit of Lessee technical capability, systems, and procedures
-  Periodic inspection of aircraft, records and maintenance procedures
-  Monitoring of repairs and modifications, AD / SB status and tracking of rotatable component changes
-  Currency of aircraft certification, maintenance programme, manuals and technical record-keeping
-  Oversight of airframe and engine heavy maintenance
-  Analysis of maintenance invoices and reserve claims

Technical Advisory Services

The blend of commercial experience and technical expertise across a wide range of aircraft types which supports ALM's long-term asset management services is also available on a project and ad hoc basis.

-  Aircraft specification review and evaluation
-  Preparation of maintenance worksopes and costing
-  Negotiation and contracting of maintenance inputs and on-site representation
-  Maintenance invoice verification
-  Maintenance planning document (MPD) customisation
-  Historic technical records rehabilitation

Aircraft Remarketing

ALM specialises in the remarketing of commercial aircraft for lease and sale. The company has a long track record in placing a wide variety of aircraft types in sale and leasing structures including cash sales, instalment sales, sales with leases attached, sale-leasebacks and operating leases.
